

# Make It Happen

Make It Happen is a JPMorganChase program aimed to inspire young people in digital technology.

We invite your school to join our app design competition for students aged 5-11 to inspire young digital creators. Students will design, describe, and draw their app ideas on a paper-based entry form. The winning design from your school will be developed into a real app by JPMorganChase volunteers and published online for students to share with friends and family.

Register your interest today!  
<https://tinyurl.com/MIH-Interest>

**Operating Locations for 2025**  
Bournemouth, Glasgow, Hong Kong, and London

## Think it

Our team will visit your school to introduce the competition and spark excitement about app design and technology. This session will last approximately 20 minutes.

## Design it

Students will be provided with submission sheets to draw and describe their app ideas.

## Build it

Our team collects entries, reviews them, selects a winner, and builds the app.

Finally, we return to announce the winner, and the app is published.

## Timeline: 6- 10 weeks in total

### Prizes:

- The winning idea will be developed into an app
- The winning student and two runners-up will receive prizes

**Cost:** The program is completely free of charge

### More Information:
